Dear Mr. Henderson:

I really owe you an apology. When I received your letter, I immediately looked up your first letter, and to my chagrin I find that you do mention 1955 as the year. It was my error and not yours.

I am hoping to find time to get out another letter to all regional oragnizations this month and I will be sure to correct the date and make particular mention of the change so that there will be no misunderstanding.

Thank you very much for calling it to my attention.

Sincerely yours,

Leonel C Panosh
